ATSF Steam Locomotive Assignments Transcribed By John C. Barry From Original Document
In the Temple Heritage & RR Museum

Notes from the last page of the original"

Source: AT&SF Form 1161 "Locomotive Service Reports" dated Dec. 15, 1936.

Key: S-Shop and point in shop with class of repairs undergoing- viz. 2-Class 2

3 & 3X- class 3 4-Class 4 5-Class 5 -W-Wreck repairs RR-Running repairs,

LUG-Laid up good condition

LUT-Laid up temporary

AS- Awaiting shopping

HD- Held for disposition and date out of service

Ex- Extra locomotive or protection locomotive

Service: P-Passenger F-Freight FH-Freight Helper PH-Passenger Helper

S-Switch W-Work SB-Stationary Boiler H-Helper

Following classes of coal burners equipped with mechanical stokers: 3160-3700

3751-3800-4000-4101-5000

Equipped with booster on trailer truck: 3868-3869 3916-3930 4028-4029

4070-4085 4101-4115

Corrections from the original Highlighted in Yellow, :

3925 Original Div Assignment reads "Ditto Mark from Southern" with this assignment it is more logically Arizona.

3871 Original Assignment reads "Clovis-Barstow", assumed a typo and corrected to "Clovis-Belen"

2440 Original Div Assignment reads "Ditto Mark from Arizona" with this assignment it is more logically Valley.

My thanks to Craig Ordner the TH&RR Museum Archivist for providing the scanned images of the original 1936 document and the unsung preservationist that salvaged it from the dumpster. We all owe a debt of gratitude to those who have and are preserving the heritage of the Santa Fe. Any errors in the transcription are solely mine.
