A good photo of the western abutment

More of the wall between this bridge and A-63/62.0 can be seen in this picture

Delano Photo (1944)? Shows another view of the wall between bridges with dirt apparently recently bulldozed.

Mike Davis - January 2019

Mike Davis's model of the bridge using Monroe Models /AIM 556 abutments and pier, with ME 75-520 girders, and a hard board deck. Custom abutments could match the prototype.
